**Tewua** is a brand of Avitabile Napoleone srl, a company founded in 1935. A family-owned chemical factory that has over time been focusing and specialising its efforts in the world of Pet Care.

The company's journey has been paved with challenges and business successes, with the continuous aim of producing high-quality and competitive pet products.

The company's entry in the pet market almost twenty years ago has seen the company become a leader in its field, which was driven by the company's deep passion for animals and the initiation of a continuous pursuit for innovative pet formulations.

Our deep level of sensitivity regarding the environmental issues that impact our faithful friends, as well as the dynamic changes in the global market of pet care impels Tewua to continuously transform and create innovative internal processes and superior pet care products that are in line with global market changes.

**research, dedication, quality, professionalism and collaboration have always been at the base of our work and production**

PET  SMETICS

The company's success has been a result of its accumulation of twenty years of experience in the pet product market as well as result of the company's value-driven philosophy of making effective products, high-quality service and competitive prices whilst taking in to consideration the company's impact on the global environment.

Technologically advanced systems aimed at reaching high standards of production output (over 20,000 pieces per day).

A 2500 sq. m. warehouse with a large production capacity, allowing for on-time deliveries. Research and development laboratory, continuous quality test control and appropriate product formulas that are compliant with current regulations. Dynamically organized sales network with head area, exclusive agents and distributors able to offer an excellent service on all the national territory.

Industrial capacity and organizational flexibility are the elements that underpin Tewua's ability to operate efficiently and satisfy customer's requests in a timely manner.

**a full product range that ensures high-quality standards for the care, beauty and cleaning of pets and their environment**

To fulfill each product's desired purpose, whilst providing innovative and high-quality cosmetics, we use natural ingredients and raw materials, which are registered and approved by the European Chemicals Agency (ECHA).

We are focused on upholding a "Green Philosophy" with our products through the use of packaging with low environmental impact, as well as providing cosmetic compositions that are 100% natural and harmless to the health.

Private label service involving the organisation and production of customised labels, catering to customer's individual needs and requests.
